

P.P.E. REGULATION 2016/425 AT WONDER GRIP®

WHAT DOES THE REGULATION (EU) 2016/425 MEAN TO WONDER GRIP® AS A PPE MANUFACTURER?

The Regulation 2016/425 came into force in the UK on the 21st April 2018. It means that previous specification for PPE may no longer be appropriate. It is a stricter regulation with more defined specifications of the process of PPE design and manufacture. At Wonder Grip® we work to the strict confines of 2016/425, to ensure our end-users have a higher chance of being suitably protected, as stricter guidelines should ensure expectations are met and maintained.

WHAT DOES WONDER GRIP EXPECT FROM ITS SUPPLY CHAIN IN COMPLYING WITH 2016/425?

At Wonder Grip® our suppliers of PPE should be prepared to make essential checks, to ensure the PPE they are providing to consumers meets appropriate standards, and matches all new specifications in the Regulation. Accountability along the supply chain, ensures that employees and wearers of PPE are protected against risks that have been properly assessed and measured.

AT WONDER GRIP YOU CAN PURCHASE COMPLIANT PPE?

Wonder Grip® takes care to stay up to date with the standards, compliance and regulations surrounding PPE within its marketplace. This helps ensure our customers and the end-users of our extensive PPE cutting edge performance range, are kept both safe and comfortable at work. All appropriate products are CE certified and conform to the required British, European or International safety standards.

**2016/425 is an excellent ECO regulator in the future of packaging
compliance!**
