

CE/UKCA MARKING:

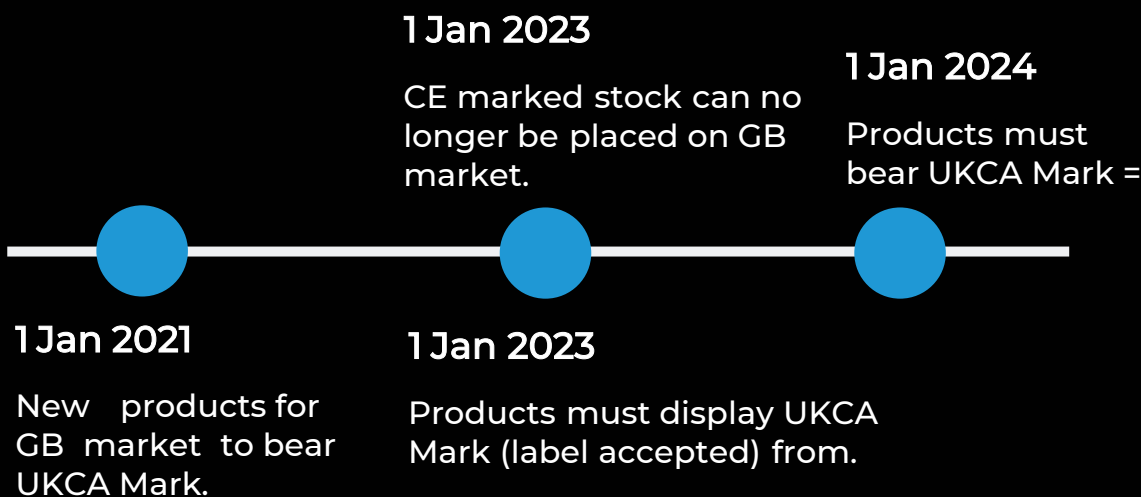

NEW REGULATORY REQUIREMENTS

PRODUCT IN STOCK AT WONDER GRIP®

Since 1 January 2021, the EU and UK have operated via two separate regulatory and legal regimes for product safety.

Here at Wonder Grip® we have been working hard to ensure that the products within our range comply with the product safety requirements stipulated to meet the new regulation - UKCA and CE. To achieve this we are working to the strict guidelines of the UKCA Mark Timeline.

UKCA Mark-Timeline

UKCA Mark

- The UKCA (UK Conformity Assessed) marking is used for goods being placed on the market in Great Britain.
- UKCA marking applies to most goods previously subject to the CE marking.
- The use of self-declaration of conformity for UKCA marking is the same as for CE marking.
- If you were able to self-declare conformity for the CE marking, you will be able to do the same for the UKCA marking.

Product safety and compliance to standards/regulations are paramount at Wonder Grip®.
