

WONDERGRIP ARE PROUD TO ANNOUNCE THEY ARE NOW AN SA8000 CERTIFIED-SITE

At Wonder Grip®, we are extremely proud to have successfully achieved SA8000 Certification, which enhances our current SMETA 4-pillar audit methodology together with the Wider Worker Survey; both successfully completed this year for the second year running.

Social Accountability and Ethical Compliance now forms an integral part of our Corporate Culture in complying with highly respected standards and accreditations recognised by all customers, retailers and end users; creating an extremely robust compliance system.

Who developed SA 8000?

It was developed in 1989 by Social Accountability International, formerly the Council on Economic Priorities, by an advisory board consisting of trade unions, NGOs, civil society organizations and companies.

What is the SA8000 Standard based on?

The SA8000 Standard is based on internationally recognized standards of decent work, including the Universal Declaration of Human Rights, ILO conventions, and national laws. SA8000 applies a management-systems approach to social performance and emphasizes continual improvement—not checklist-style auditing.

Elements of the Standard

- * Child Labor
- * Forced or Compulsory Labor
- * Health and Safety
- * Freedom of Association & Right to Collective Bargaining
- * Discrimination
- * Disciplinary Practices
- * Working Hours
- * Remuneration
- * Management System.

SA8000 improves standards for our workers and our business.

At Wonder Grip we are continually striving to improve the standards for our workers, and as a business. Management systems, worker engagement, a culture of continuous improvement, and other elements of SA8000 not only lead to better working conditions and worker well-being, but they also have benefits for productivity, stakeholder relationships, market access, and more.

Here at Wonder Grip the Senior Management would like to take this opportunity to thank it's Team for their continued commitment, determination and hard work in striving for continual improvement!
